Because we are committed to limiting uncertainty, the Integra SaberTip™ ultrasonic tip increases selective bone removal around critical structures while keeping a high level of selectivity, enabling the CUSA EXcel®+ Systems to address a wider range of tissue types and save valuable time in operating room.

Product Description

- Ultrasonic longitudinal motion enables precision bone removal without the concern of a rotating device.
- 180° abrasive surface for sculpting bone.
- Central aspirating tip assists in keeping the operating field clean.
- Tip changeable in the sterile field.
- Pre-aspiration holes cool the tip and reduce misting.
- Tapered design improves tip visibility.
- Available on the small and powerful 36kHz handpiece for improved tactile feedback.
Product Specification
- Catalog #: C4616S
- Tip Length: 11.49 cm (4.53 in.)
- Tip ID: 1.14 mm (0.05 in.)
- Tip OD: 2.85 mm (0.11 in.)
- Packaging: 4 single use / sterile tips per box

CUSA® SaberTip™
Selective bone removal around critical structures

180° abrasive surface

CUSA EXcel® + Range of Tips

PrecisionTip™ Series
Smallest diameter for access in restricted areas

MicroTip™ Series
Better access for delicate procedures

Standard Tip Series
Larger diameter for rapid tumor debulking

CUSA® SaberTip™
Selective bone removal around critical structures

MicroTip™ Plus
Improved access for transnasal procedures

ShearTip™
Specific design for fibrous and tough tissue
